Why Bangladesh

Bangladesh is an upcoming global leader in apparel manufacturing considering following facts:

- Bangladesh has more than 5000 Ready Made Garments Factories*
- Bangladesh Has ranked fourth in the global apparelexports*
- Bangladesh majority factories are setup vertically which means all procedures i.e.. knitting, dyeing, finishing takeplace under one roof.
- Bangladesh has a huge pool of garment workers due to its 170 million populatio
- Bangladesh has a good supply of local energy i.e. natural gas & coal living in harmony irrespective of race and religion.
- Bangladesh offers export-oriented industrial zones (EPZ) with infra-structural facilities & logistical support for foreign
- including roads, highways, surface transport & port facilities for a better environment

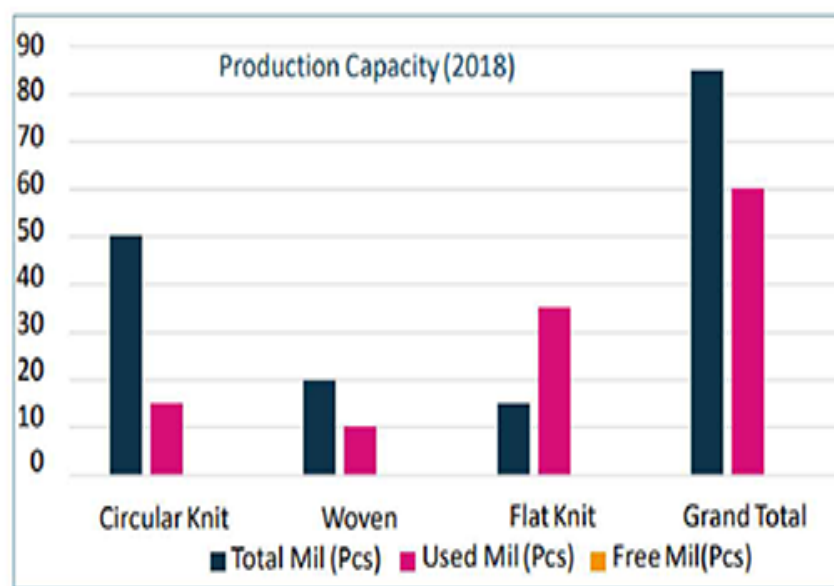

PRODUCTION CAPACITY:

We represent an exclusive and comprehensive manufacturing and service that simplifies your apparel business. We are a manufacture and service organization. We are your partner and ally, managing the global supply chain for you. From design styling to export documentation (Delivery), we do everything for you.

We are covering major 3 kinds of product line in our factories and the current and open capacities of all these factories are as follows
